

School Funding During The COVID-19 Pandemic:

Additional costs associated with the provision of meals during the Easter holiday period 2022.

Context

During the course of the COVID 19 pandemic, specific financial support for pupils entitled to FSM was initially provided by the government during school holiday periods, but this came to an end once schools re-opened in September 2020.

The government then provided funding, via the DWP COVID Winter Grant Scheme and the COVID Local Support Grant and its extension, to support vulnerable households and families with children particularly affected by the pandemic throughout the winter of 2020-21 period with the cost of food, energy (heating, cooking, lighting), water bills (including sewerage) and other essentials. In the absence of specific and ring-fenced funding for FSMs pupils over school holiday periods, Southwark chose to use this grant funding to make meal provision over the holiday periods from Christmas 2020 through to the summer holiday 2021.

The government announced, in the autumn, the provision of the Household Support Grant which will allow local authorities to help the hardest-hit families and individuals directly with daily needs such as food, clothing and utilities over the winter. It is for local authorities to decide on how best to target this funding and Southwark have set a proportion aside to support pupils entitled to FSM during the 2021-22 winter and now spring school holidays of October half term, Christmas, February half term and Easter.
