## Personal Development

It is highly likely that your school will be inspected for 'Personal Development', and PSHE provides the perfect framework to support and evidence children's learning within the areas that contribute to this inspection criteria, such as RSHE.

**The 1decision platform has held the PSHE quality assured kitemark for over a decade and continues to improve and increase content to include additional layers to help you evidence personal development at its best!**

Personal Development looks different for every child, and schools have the freedom to **build on** and **reduce** 1decision content in line with the needs of their students.

Unlike other PSHE models, 1decision supports your school in evidencing Personal Development for **every single child**.

## What makes 1decision stand out?

Built in to our ready-to-load lessons and topics, the core of our programme is a series of videos with alternative endings, which bring the classroom to life. Your pupils choose the ending.

These videos **encourage** and **empower** children to make positive choices and decisions for the characters, whilst learning the vocabulary, skills, and knowledge to support their own decision making now and in the future.

Additionally, our programme supports your school in tracking every child's progression for PSHE and other key areas.

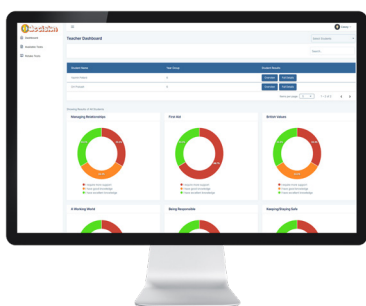

## What does 1decision offer?

1decision provides a fun, interactive, and **fully kitemarked** scheme of work, featuring over 110 topics for children aged 5-11. The scheme also incorporates the statutory elements for Relationships and Health Education.

**Other benefits include: yearly audits, online training, individual assessment tracking tools, early years portal, assembly portal, and so much more!**

## Personal Development Transition Quiz

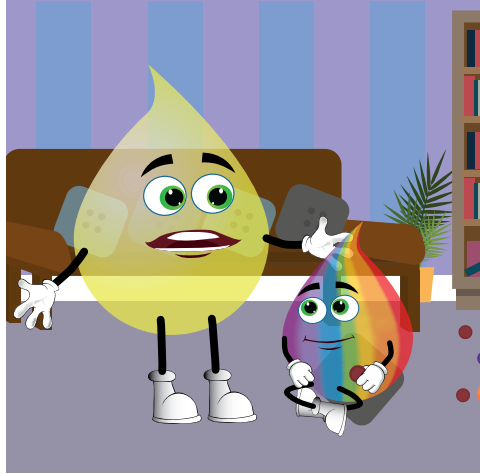

Introducing the **1decision Personal Development Transition Quiz!** This new software provides schools with the ability to quickly assess and gather data on their pupils' knowledge when it comes to areas of Personal Development. The quiz results will support your staff in recognising how to close any gaps and help prepare pupils for their transition to secondary school.

The test provides a sequence of questions with multiple answers which cover **twelve** areas of **Personal Development**, closely linked to **PSHE** and **RSHE**.

## Early Years
